

## Security Notice regarding FNB Mobile App downloads:

If you want to use your mobile device for Online Banking it is very important for your safety that you download the app from the official app store for your device (Goggle Play, or iTunes) and never from an unlicensed website you might find using an internet search. **We provide links to the appropriate app stores on the front page of our website.**

There are rogue websites on the internet offering mobile banking applications from banks all over the world. These applications cannot be trusted, because hackers download real apps and reverse engineer them for their own purposes. Then they post them in these fake app stores hoping you will install their modified app in order to help them steal your account information, or install other spyware/malware on your device.

Please use the following links for downloading our mobile banking app:

Android:

[Goodle Play Store](#)

Apple:

[Apple iTunes](#)
